Dear Parent/Carer,

### **Y9 3-in-1 Teenage booster and MenACWY Vaccinations**

A part of the UK routine Childhood Immunisation Schedule, we are offering the 3-in-1 teenage booster and MenACWY vaccines to your child. The 3-in-1 teenage booster protects against three different diseases – Diphtheria, Tetanus and Polio. The MenACWY protects against Meningococcal A, C, W & Y.

#### **Why is it important to protect your children from these diseases?**

**Diphtheria** – is a life-threatening disease where poisons produced by the bacteria entering the blood stream can damage the heart and other organs.

**Tetanus** – is a disease that tends to be caused by an infected wound and can be fatal.

**Polio** – can result in severe paralysis and can be fatal.

**Meningitis** – can affect all age groups, which can cause two very serious illnesses, meningitis, and septicaemia.

For further information please visit: [www.nhs.uk/conditions/vaccinations/3-in-1-teenage-booster/](http://www.nhs.uk/conditions/vaccinations/3-in-1-teenage-booster/)  
And [www.nhs.uk/conditions/vaccinations/men-acwy-vaccine/](http://www.nhs.uk/conditions/vaccinations/men-acwy-vaccine/)
